this critique provides a framework for understanding and interpreting the widespread but little known new apostolic reformation movement as the authors state in the preface we write this book with two major goals in mind first to give people an idea of the sheer size and reach of the nar movement and second to systematize its key teachings and practices and evaluate them on the basis of scripture and careful reasoning in our judgment the nar perspective crosses these boundaries that is certain broad parameters revealed in scripture and practiced in the historical orthodox church and it does so in part because of flawed theology rooted in a flawed understanding of scripture
